

HANGING PRIVACY SCREEN

USER MANUAL

Ref 21 / NOSC21 V1

To fix your outdoor privacy screen :

The outdoor privacy screen is installed on your wall using hooks.

First, drill your wall according to its nature (solid wall, hollow wall, wooden partition...).

Position the top hooks by passing them through the slots provided for this purpose.
Then do the same with the bottom hooks, and take care to get a good tension as well

This product is also suitable for interior wet rooms (bathroom, SPA, Hammam, indoor swimming pool, etc...)

Hooks, studs and screws not supplied.
